

# GObox® GR22

## Charging stand prepared for AC charging boxes up to 22kW

GObox® is Triarca's universal charging station including base electrical components prepared for the most popular AC charging boxes on the market. GObox® includes a switchboard with transient protection, combination switches, terminal blocks and connection cables for charging boxes.

### Complete solutions with charging stations for any grid system

Triarca's GObox® is prepared for single or dual installation of AC charging boxes up to 22kW and is a coupled solution of charging stations for any grid system (TT / TN-S / TN-C)

The charging station is a universal solution that can be used for any charging point via interchangeable mounting plates. Mounting plates are available for different brands or a blanking plate for drilling according to the charging box.

The cradle comes in insulation class II and fulfils the requirements of EN61439-7.

GObox® equipped with an integrated and adjustable push-out plinth with wing base for quick and easy installation

### Why choose GObox®

- Complies with all standards, regulations and requirements regardless of network system
- Quick installation and assembly - no separate foundation required
- Comes with full documentation
- Danish produced
- One supplier = one responsibility
- Large loop terminals and loop option between multiple charging stations

Type	Technical data
Dimensions (HxWxD) mm	1400x330x141
Height above ground (Installed)	1205 mm
Item number	598330
EAN	5711255983301
Vsgt	31.9kg
Plinth	Integrated ejector socket
Country of manufacture	Denmark
Insulation class	Insulation class II
Installation of number of charging boxes	1 or 2
Fits charging boxes (brand)	View all
Panels	Customisable
Colour	RAL 7037 (Grey)
Coating	Polyester
Moisturiser	Yes, you can
Top cover insulation	Yes, you can
Material	Galvanised steel
Corrosion class	C4
Electrical data	
System earthing	TT / TN / TN-C
Nominal voltage	3x400V
Frequency	50-55 Hz
Double clamping jaws for loop connection	4.0 - 70mm <sup>2</sup>
Max. insurance	125A
Electrical components	2 x RCBO C32A 30mA, class A 1 x SPD class II
Documentation	Complies with EN61439-7 (Board documentation included)

## Accessories

Item number	Description	Number of	EAN
598340	Mounting plate without pre-drilling / holes	1	5711255983400
598342	Mounting plate for Zaptec Pro	1	5711255983424
598341	Mounting plate for ABB Terra	1	5711255983417
